

EDUCATION

RELIABLE INFORMATION

The **Idaho Immunization Coalition (IIC)** provides immunization resources and education to people of all backgrounds and all ages, from children to seniors.

We strive to listen to what our community needs and then bring the necessary resources to where the people already are, including workplaces, places of worship, and community centers.

Our goal is to give people the facts so they can make their own informed decisions.

ADVOCACY

GET IMMUNIZED, IDAHO

It is crucial to make our voices heard about the importance of immunizations for a healthy lifestyle.

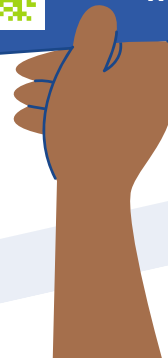

The IIC relies on the help of our supporters - individuals, experts, and health care professionals - to let our community leaders know how important immunizations are to our community's health.

IMMUNIZATIONS SAVE LIVES

PARTNERSHIP

PUBLIC OUTREACH

- Partner with local agencies, businesses, and non-profits to ensure immunizations and education are available where needed.
- Organizes no-cost educational events and mobile clinics, focusing on rural and disproportionately affected communities.
- Support other local organizations through the IIC's small grants program.
